

Directions

- Place two pretzels next to each other in a single layer on a lined cookie sheet to create two butterfly wings. Break off small pieces of another pretzel and place as the antennae.
- Microwave candy melts until completely melted. Then pour into a squeeze bottle and fill each pretzel hole with the chocolate.
- Squeeze chocolate in a line over where the pretzels meet to bond together. Squeeze and extra dot at the top where the antennae meet as the head.
- Decorate with fun colored sprinkles or any other decorations you have down the body of the butterfly and on the wings
- Cool completely in refrigerator, until chocolates harden.
